Short history OF ELTE

Academic system AT ELTE

ELTE is internationally recognized, and its programs are accredited by the Hungarian Accreditation Board. The diplomas issued by Eötvös Loránd University are acknowledged worldwide, and its course credits are transferable in all countries in the European Union.

Eötvös Loránd University, and the Hungarian higher education in general takes part in the Bologna Process. Accordingly, the consecutive training cycles of the higher education leading to a higher education degree are *alapképzés* (Bachelor program), *mesterképzés* (Master program) and *doktori képzés* (Doctorate). Bachelor and Master courses are taught in consecutive cycles, in the form of divided training, or in cases specified by law in the form of undivided, one-tier training.

Organization of studies

Students studying in Bachelor and Master programmes complete their studies by passing a final examination. The final examination may consist of the defence of the degree thesis, and additional oral, written or practical examinations.

Integrated “Long” (One-tier) Programs

An undivided one-tier programme resulting in *mesterfokozat* (Master's degree) is a training with the length of 10-12 semesters, requiring the completion of 300-360 credits. Besides religious education and some programmes of arts, the following programmes are conducted within one-tier Master courses: veterinary medicine, architecture, dentistry, pharmaceutics, law and medicine.

First/Second Degree Programs (Two-tier)

The first higher education degree is the *alapképzés* (Bachelor's degree) along with a professional qualification. A Bachelor's programme requires gaining 180-240 credits. The length of the programme is 6-8 semesters.

The second higher education degree is the *mesterfokozat* (Master's degree) along with a professional qualification. The Masters's programme is built on a Bachelor's programme; i.e., you need to have a Bachelor's degree to start a Master's programmes require gaining 60-120 credits. The length of the programme is 2-4 semesters.

Doctoral Program

Built on a Master's programme and a Master degree, the *doktori képzés* (Doctorate) requires gaining at least 240 credits. From September 2016, the length of the programme is 8 semesters (4 years). Following a Doctorate programme, in a separate degree awarding procedure, the scientific degree "Doctor of Philosophy" (abbreviation: PhD), or in art education "Doctor of Liberal Arts" (abbreviation: DLA) may be awarded.

ECTS credit system AND GRADING

The Hungarian academic credit system following the Hungarian law is an ECTS-compatible system. The calculation of the credits is based on the number of working hours of the students (one credit is 30 student working hours, on average).

At the end of the semester, the assessment of knowledge is generally carried out according to a five-grade scale: excellent (5), good (4), satisfactory (3), pass (2), and fail (1) or a three-grade scale: excellent (5), satisfactory (3), fail (1). The students' study achievement is evaluated with a grade (1-fail, 2-sufficient or pass, 3-medium or satisfactory, 4-good, 5-excellent).

The ECTS conversion table ensures transfer procedures between the Hungarian academic credit system and the ECTS. The recognition of courses completed abroad is based on the credit transfer regulation. For incoming international students, a Transcript of Records is issued at the end of the semester, which contains the code and title of the completed courses, credits, grade, and its ECTS-compatible grade.

System of assessment: ECTS conversion table

ELTE grade	Equivalent ECTS grade
5 (excellent)	A, B excellent, very good
4 (good)	C good
3 (satisfactory)	D satisfactory
2 (pass)	E sufficient
1 (fail)	FX, F fail

- 1 full academic year = 60 credits

- 1 semester = 30 credits

International STUDENTS AT ELTE

Each semester about 3000 international students from over 80 different countries study at ELTE.

"Full degree" Bachelor, Master or PhD students undertake their entire studies at ELTE. In addition to self-funded students, Hungarian governmental scholarship holders (Stipendium Hungaricum, the Scholarship Programme for Christian Young People and Hungarian Diaspora Scholarship) also obtain their diploma at ELTE.

Erasmus+ students come from a European university with whom ELTE has an Inter-Institutional Agreement for a study period of one or two semesters.

Erasmus+ international credit mobility students come from non-EU universities with whom ELTE has a bilateral exchange agreement for a study period of one or two semesters.

Further incoming mobility students study at ELTE for one or two semesters within the framework of institutional bilateral agreements, via the membership of ELTE in university networks, or further (mainly governmental) scholarship programs (e.g., CEEPUS, Hungarian State Scholarships, Visegrad Fund).

ELTE Summer University participants visit ELTE, for summer programmes organized at ELTE.

Make sure to consult the University homepage (www.elte.hu/en/incoming-mobility and www.elte.hu/en/coronavirus) and official statements released by the Hungarian government (www.abouthungary.hu)

To-do's before YOU ARRIVE AT ELTE

Check the academic calendar (p 13.)

Contact your faculty international coordinator (p 71. Appendix B)

While you are here at ELTE, your faculty international coordinator will give you information about administrative issues related to your studies.

Register (only for exchange students)

If you are an exchange student at ELTE, please ask your faculty international coordinator to help you with the registration process. It is important that you register so that your faculty coordinator can arrange your official student status in the online study system "Neptun" at ELTE before your arrival.

Ask for a mentor (p 36.)

An English-speaking local student mentor (a member of the student organization ESN ELTE <https://www.esnelte.hu/mentorsystem> or the Stipendium Hungaricum mentor system <https://shmentor.hu/>) will help you find your way at ELTE and in Budapest. Your local student mentor is available for you throughout the whole period of your stay at ELTE.

Arrange your visa application (p 22.)

Citizens of the states of the European Economic Area (EEA) are entitled to enter the territory of the Hungarian Republic in possession of a valid identity card or passport and might stay, not exceeding 90 days, without any special authorization.

If you are a student from a non-EEA country, you need to obtain a residence permit for the purpose of studies. You need to submit the residence permit application at

the Hungarian Consulate or at other locations authorized to receive residence or nationality. It is strongly advised to apply for the residence permit for the purpose of studies in your home country approximately one month before arriving to Hungary. With this procedure, you are also applying for the residence permit visa (D-visa) which allows you to enter Hungary only once and stay for 30 days before receiving residence permit.

In the case of border crossing by air, you might need an **equity request** in addition to your visa to enter Hungary, due to the regulations concerning the coronavirus pandemic. You can learn more about the entry regulations that apply to you here: <https://www.elte.hu/en/visa-procedure>.

Arrange travel and health insurance for the travel and for the time until you receive an insurance from ELTE (p. 29)

All international students can arrange private health insurance at ELTE for the duration of their studies.

Note that if you hold a Hungarian governmental scholarship, you are eligible for health insurance that will be arranged by the university after you are enrolled, requested it and have all the necessary documents.

Student CARD

Student Card or Student ID will certify that you are a student of ELTE and will provide you with student discounts in several places (eg. monthly pass for public transportation, museum tickets etc.). It is highly recommended to request a Student Card for yourself once you arrive to Hungary.

Remember, first you have to enroll at the faculty, only then are you eligible for a student ID from the first day of the study period (September 6, 2021).

For students studying at ELTE shorter than 12 months: Temporary Student Certificate

To get your temporary student ID document from the first day of the study period (September 6, 2021), please visit Quaestura Office with your passport. The temporary student card is valid for 60 days and you need to renew it after 60 days at Quaestura. You can also start a request to get a permanent student card – it is optional.

For students studying at ELTE longer than 12 months: Plastic Student Card

If you are a student staying at ELTE longer than 12 months (e.g., full-time students), you need to request a permanent student card (a plastic one). This student card is a plastic orange-brown card, in size similar to a bank card.

Arrangement of Student Card (the main steps)

- First, you need to go to one of the offices of the Hungarian Integrated Government Customer Service (in Hungarian: "Kormányablak"). Since staff are not required to speak English in these offices, you shall ask the help of your mentor for help at this step.
- The officer of the Integrated Government Customer Service will ask you **to register in the system** there and **will take your photo** for your Student Card.
- After registration you will receive a personal ID (in Hungarian „NEK azonosító”)

(In the first half of September you will have a chance to arrange your NEK ID at the on-site services of the "Kormányablak" at the university after registration. For details, please ask your faculty's International Office.)

- Next, you have to **upload** this ID number into the Neptun system based on instructions given by Quaestura Office / your mentor (log in to Neptun → go to Administration → Student card request).
- Once you uploaded your ID, **Quaestura Office will issue your temporary Student Certificate** at your request until the permanent one is made.

Detailed information on how to request a student card is available here:

<https://qter.elte.hu/Statikus.aspx/GyIK-Diakigazolvany#5>

Your legal stay IN HUNGARY

After you have successfully passed the entrance exam, you will receive an official notification from ELTE that you have been admitted to the study program (a Letter of Admission/Acceptance document is issued and sent to you). Before you start your studies at ELTE, you need to ensure your legal status in Hungary. Considering from what part of the world you are coming to Hungary, choose the appropriate way to make your stay legal.

Please note that due to the emergency measures introduced against COVID-19 all procedures are subject to change. Make sure to consult the University homepage (www.elte.hu/en/incoming-mobility and www.elte.hu/en/coronavirus) and official statements released by the Hungarian government (www.abouthungary.hu)

If you are a **citizen of an EU/EEA member state** (EEA = EU member states and Norway, Switzerland, Iceland, and Lichtenstein), you may travel to Hungary without a long-term study visa, but you need to obtain a **registration card** for the duration of your studies in Hungary.

If you are a **citizen of a country that is not part of the European Economic Area (non-EEA)**, you are required to obtain a **residence permit**, and you need to register your accommodation after your arrival in Hungary.

After you arrive in Budapest, you can arrange your registration card (EEA) or residence permit (non-EEA) at the National Directorate-General for Aliens Policing (in Hungarian: „Országos Idegenrendészeti Főigazgatóság”, abbreviated as OIF). In the office, you can arrange your registration card, prolongation of the national permit, authority's approval of invitation letter, report of accommodation.

Health INSURANCE

www.elte.hu/en/health-insurance

When you arrive in Hungary, make sure that you have a health insurance with you that you can use for health care services during your stay in Hungary.

If you are an EEA (EU member states, Norway, Lichtenstein, Iceland and Switzerland) student, it is advisable to apply for a European Health Insurance Card from your health insurance provider in your home country before you leave from home.

If you are a non-EEA student, you should take care about your health insurance on your own in your home country before you start your travel. After your arrival, you have the possibility to arrange a health insurance at ELTE for the semesters you spend at ELTE.

If you are a student with a scholarship offered by the Minister of Education in Hungary, you are eligible for health care services in Hungary and you will receive a "TAJ card". With the „TAJ" health insurance ID, you are eligible to use the health services in Hungary.

European Health Insurance Card – EHIC

Citizens from the EEA and Switzerland can access all healthcare services if they own a European Health Insurance Card. **It can be issued free of charge in your home country.**

The card does not cover issues that can be delayed until you return to your nation (e.g. some types of dental care), it only covers healthcare which is normally covered by a statutory healthcare system in Hungary. The main goal behind the card is that you don't have to suspend your stay here, you can get the care that Hungarians would. **The expiry date can vary from country to country**, so it is advisable to ask about it when you obtain the card at your local health authority.

NOTE! When using the card, don't forget to bring your passport or ID card with yourself. The health insurance card is valid only together with your passport. Please always keep with you your Health Insurance Card and your passport.

If unfortunately you need to go to a hospital, treatment is normally provided through a referral from a GP. In urgent cases, no referral is necessary.

If you have forgotten or lost your card, you can ask your local authority to e-mail you a Provisional Replacement Certificate. This will give you the same entitlement as the card does. You will need to forward it in the following 15 days otherwise the healthcare provider will charge you a fee for the treatment and will issue you an invoice. You can still apply for a reimbursement though in your own country.

Public Health Insurance Card (TAJ card)

Students with a Hungarian Governmental Scholarship (e.g. Stipendium Hungaricum, Scholarship Programme for Christian Young People, Hungarian Diaspora Scholarship) are entitled to enjoy health care services and they are entitled to have a social security card ("TAJ card"). Furthermore, you are also eligible for a supplementary private health insurance, providing you with healthcare services in English. The costs of the insurance are covered by the scholarship programmes. With the "TAJ card" (the card for Hungary's national health insurance scheme), scholarship holders are publicly insured and they are able to access **public healthcare for free**, not just emergency or urgent care. Scholarship holders can request the public health insurance card (TAJ card) online on the official homepage of the Quaestura Office at ELTE.

Private health insurance

ELTE offers a private health insurance for those who want to **extend the services of their health insurance** within the territory of the Republic of Hungary. You can purchase this fee-for-service health insurance in person at the **Quaestura Office of Student Services**. The fee-for-service health insurance covers costs of medical and health care services, within the framework of an insurance policy. After the written agreement by and between you and the insurance company (i.e., after completing and signing the insured's statement), you will receive a health insurance card which is designed to be proof of the insurance coverage at the health care service provider.

Libraries

University Library and Archives

The University Library was **founded in 1561** by the Jesuit order; it is **one of the oldest libraries in the country**, which was opened to the public in 1876. Until 1949 its collection interest covered works from all disciplines taught at the university, later it was limited to philosophy, medieval and early modern times history, and religion and the history of religion. Since then, the library has a nation-wide responsibility for the collection of publications in these fields. The historical collection, as a part of the National Cultural Heritage of Hungary, includes 185 codices, 1 200 incunabula, 11 000 works from the 16th, 15 000 from the 17th, and 75 000 from the 18th century.

Registration is free for all employees and students of ELTE and the student card can be used as library card. Our **ELTE Library WebApp** is a web application optimized for smart phones. The application replaces the paper-based library card and also offers a number of additional features.

Besides the traditional library services, **the Library provides access to e-books, e-journals and databases** and, if licences allow, they are made available for the students of ELTE also from home.

Courses in database management, literature searching, publishing, and library use are organised regularly with the aim of fostering the independent use of library services and information resources, and basic research activities. The Library supports Open Access publishing by aiding submission of articles to open access journals and enhancing self-archiving. The portal of the University Library Service (ULS) (eltekonyvtarak.elte.hu/en), based on the cooperation of the network of libraries, offers full-scale information on all the libraries of the eight ELTE faculties. **The OPAC (opac.elte.hu) contains records of almost 1.5 million copies of documents** such as books, journals, special and electronic documents, and dissertations of the University Library and other libraries belonging to the ELTE network.

Other libraries in Budapest:

It is worth to take the opportunity and visit some imposing libraries across Budapest:

-  **National Széchenyi Library – www.oszk.hu**
It's located in the rear wing of the Royal Palace, facing toward Buda. It's a national library, the biggest collection including some surviving books of King Mathias, the legendary king of the Renaissance (their name is "Corvina", as the ensign of the king was the raven (called corvus in Latin)).
-  **Library of the Parliament – www.ogyk.hu**
The house of the Hungarian Parliament established the library at the end of the 1860's. In 1902 the library moved to the newly built Parliament on the bank of Danube. It only became a public collection in 1952; until that time, access was permitted only to institutions and professionals.
-  **Library and Information Centre of the Hungarian Academy of Sciences – https://konyvtar.mta.hu/index_en.php**
It's a special national research library. Since its foundation in 1826, it has dedicated itself to supporting scientific and scholarly research and safeguarding its precious collections.
-  **Metropolitan Ervin Szabó Library – www.fszek.hu**
It's located in a magnificent neo-Baroque palace completed in 1889, as well as in a new wing – presently one of the most interesting library interiors of Europe. The café is found in the former stables.
-  **National Library of Foreign Language – www.oik.hu**
Originally built for Young Men's Christian Association (YMCA), a Russian language library was opened in 1956 under the name of "Gorky Library", which later started to collect other foreign language pieces as well. Many people in Budapest call it "Gorky" even today. It has got a very pleasant atmosphere with a rich selection of journals.
-  **Central European University Library <https://library.ceu.edu/>**
Founded by George Soros in June 1992, the CEU Library is located in the heart of downtown Budapest and holds the largest collection of English-language materials in the social sciences and humanities in Central and Eastern Europe.

Mentor SYSTEM

Eötvös Loránd University offers targeted **student mentor system to all incoming students** who would like to have personal mentoring before arrival and/or during their stay in Budapest.

Mentors help international students with everyday problems, and they guide students through their international experience during their stay at ELTE in Budapest. They are enthusiastic, open-minded and helpful ELTE students. International students can turn to their mentors for help any time they need it. Mentors will be there to support international students during their first steps in Hungary and at the university, such as university administration, finding a flat or room, the best pubs, shops, restaurants, etc. There are mentors working at each ELTE faculty, so international students can turn to their mentors with faculty-specific questions as well.

There are two main mentor systems at ELTE:

Erasmus Student Network (ESN) ELTE offers mentors to all incoming exchange students and organizes activities to all international students,

Stipendium Hungaricum Mentor Network (SHMN) offers mentors to ELTE students with a Stipendium Hungaricum scholarship.

Erasmus Student Network (ESN) is one of the biggest interdisciplinary student associations in Europe. It was legally registered in 1990 for supporting and developing student exchange. It is present in more than 500 higher education institutions from 40 countries, and the network is constantly developing and expanding. It has around 13,500 active members that are in many sections supported by so-called mentors or buddies mainly taking care of international students. Thus, ESN involves in total around 29,000 young people offering its services to around 180,000 international students every year.

ESN ELTE is also a part of this international community. Both their programs and the mentor system aims to help the integration of the incoming students.

The local section, ESN ELTE works in the interests of international students. Besides, representing the rights of students having a scholarship at our university, it is our primary aim to help incoming students by offering aid in academic, social and practical integration. This is mainly provided through cultural and social activities, such as trips to various places within the country, film events, language projects, international food festivals, sports events as well as parties.

How to request a mentor?

You can request a mentor by registering to "Papaya (ESN)" (<https://papaya.iter-idea.com/auth>) – but also available on iOS (App Store) and Android (Play Store). Students' Union System OF ELTE

University Students' Union (ELTE HÖK)

Not only our University but also the Student's Union has a long tradition. **The Union's main duty is to represent Hungarian and international students at ELTE in different issues**, such as study, allowance and remedy issues. As an international student, the student organization ESN ELTE (Erasmus Student Network) and HÖOK SHMH (Stipendium Hungaricum Mentor Network) will help you to get familiar with the Hungarian language and culture, the faculties, and the student life at ELTE. In principal questions concerning your studies or credits, you can turn to the Students' Union for help who will give you a helping hand in every situation.

The Students' Union has a **two-tier structure**: first, the students directly elect the representatives from themselves, then the faculties delegate members from the representatives to the University Students' Union (ELTE HÖK). ELTE HÖK coordinates the work of the Faculty Students' Unions, represents students in the university government and in the National Students' Union (HÖOK) and organizes the student community life. The Students' Union is an autonomous organization, which elects the representatives in a democratic way and all in all the heart of the students' fellowship.

ELTE Dormitory Centre

An accommodation is essential to study in Hungary. The University helps you by two services: **you can apply to our dormitory places, or you can get housing assistance** from the ELTE Housing Office and our housing partners. With seven dormitories in Budapest and three in Szombathely (along with other specialised facilities), ELTE has the largest dormitory capacity in Hungary.

The dormitories are popular because of many reasons. They are not only comfortable and affordable – half of them went through a complete renovation within the past few years –, but the community makes both your everyday life and studies much easier.

The applications are organised by the ELTE Dormitory Centre on a central level. The announcements are public, as every ELTE student, regardless of their scholarship or level of studies, can apply. You can apply to determined periods like an academic year or the summer break.

Though, fortunately, ELTE can provide hundreds of places to its international students, our capacities are limited, and we cannot accept every applicant. Those, who do not wish to wait for a place on the waiting list, can request assistance from the ELTE Housing Office (see in the next article) as well.

For more information about the ELTE dormitories and the ongoing and coming applications, please visit the website of the ELTE Dormitory Centre:

ELTE Housing Office

Please, note that the real estate market of Budapest is limited. Thousands of international and Hungarian students are looking for an accommodation before the next semester. We firmly advise you to book your place as soon as possible!

An accommodation is essential to study in Hungary. The University helps you by two services: **you can apply to our dormitory places, or you can get housing assistance from the ELTE Housing Office and our housing partners.** In case you are not interested in the dormitories, or your dormitory application is rejected, you can ask the help of the ELTE Housing Office and our housing partners to help finding you an accommodation.

Our partners are apartment houses, private dormitories, and real estate agencies with a wide range of offers from every district of Budapest. Regardless of what you are looking for, there is a good chance you will find it by them! Why do we recommend them?

- We are working together since years. Our partners are trustworthy, you do not take any risk.
- They have specialised on international students. Multilingual services (administration, fast maintenance etc.), supporting the visa application with the necessary documents, and student-friendly attitude are our basic requirements.
- Quality accommodations and reasonable prices. You can choose from flats, apartments, hostels, private dormitories, a room alone or shared with others, in every price range, at every location. They even help you finding a roommate!
- Most of them give discount to ELTE students. It matters a lot if your deposit is only one month instead of the standard two or three!

We suggest contacting them directly, but you can ask the ELTE Housing Office for help as well.

You can read more about the ELTE Housing Office and the housing partners here:

EÖTVÖS ART ENSEMBLE

The Eötvös Art Ensemble consists of three cultural groups:

- Béla Bartók University Choir
- University Chamber Orchestra
- Folk Dance Ensemble

The groups consist of non-professional singers, musicians and dancers, primarily current and former students and lecturers of the University.

The choir was founded in 1948, the orchestra in 1957. The repertoire of the ensemble comprises works by baroque, classical and romantic masters, as well as contemporary composers. The orchestra regularly plays symphonies and concertos, whereas the choir performs a cappella pieces. However, the choir and the orchestra often perform oratorios together. They also have experience in crossing the borders between classical and popular music.

The Folk Dance Ensemble was established in 1957 and today is led by László Kovács. The repertoire of the Folk Dance Ensemble includes a wide range of folk dances of the ethnic groups living in the Carpathian Basin. The Ensemble is a prestigious amateur folk dance movement, and was qualified Gold Grade at the last nationwide qualification. There are two groups, the beginner-intermediate group and the advanced group.

Hungarian CUISINE

Hungarian food is often regarded as one of the spiciest of Europe.

Our cuisine frequently utilizes a wide range of spices to enhance the taste and culinary experience of traditional Hungarian food.

The most popular spices are paprika, black pepper and onions. Potatoes are commonly used in many dishes, also Hungarians are infamous of their tastes in using sour cream and other dairy products in their soups, desserts, stuffed pancakes and pottage dishes. The most popular side food of the Hungarian kitchen is white bread.

A few basic dishes to taste in the country:

Fish Soup – is made of fish and paprika, served best in Szeged city

Goulash Soup – is a soup of meat and vegetables, seasoned with paprika and other spices. Stew

"Pörkölt" – is a delicious, juicy meat stew, prepared from beef/pork, chopped onion, paprika, other spices, you can eat it either with boiled potato or noodles

Stuffed cabbage - cabbage leaves stuffed with rice and ground pork with tangy and spicy tomato

Somlói dumpling – whipped cream and chocolate with a characteristically creamy character

Combo-Cuisine:

For advanced culinary explorers, who seek to experience the Hungarian lifestyle: Lángos + Beer

Lángos+Beer

Lángos is a deep-fried dough. The name comes from láng, the Hungarian word for flame, but actually this is not a spicy food. Best to have at the beach at Lake Balaton with a pint of beer.

Fried Sausage + Fröccs (spritzer)

A classic with hot sausage downed with a mix of good Hungarian wine and soda is the best when discovering various markets of Budapest. Did you know that you can have different types of "Fröccs" in Hungary?

Bread and dripping + Pálinka

A combination of extremes in their category, which is appreciated by everyone in the country- side. Pálinka is a very typical shot in Hungary. Best to try a homemade version.

Pancake + Lemonade

A refreshing dessert for those who want to escape the hot summer days or just want to enjoy themselves.

Climate and weather

Hungary has a typical continental climate with hot, dry summers and mildly cold snowy winters. There are four seasons in Hungary: winter (December, January, February), spring (March, April, May), summer (June, July, August), and autumn (September, October, November).

The average annual temperature is 9.7 °C (49.5 °F). The average high temperature in the summer is 26 to 32 °C (78 to 89 °F) and temperature can climb up to 38 °C on the hottest days in July-August. The average low temperature in the winter is -7 to -3 °C (19 to 27 °F) and temperatures might drop below 10 °C on the coldest days. Generally, the weather is warmest from May to September.

Geography

Hungary is situated in the Carpathian Basin. The country's major river is the Danube, dividing the country almost in half. Its two longest rivers are called Danube and Tisza, divide Hungary into three parts, so it is worth to visit the banks of these too. Hungary's highest point is the mountain Kékes (1015m) located in the Mátra mountain range. Two-thirds of Hungary's geographic area are less than 200 meters above sea level. The lowest point, 77m above sea level lies near Szeged.

Lake Balaton is the largest lake in Central Europe, sometimes referred to as the 'Hungarian Sea'. It is 78 km long and between 3-14 km wide. One of the biggest tourist attractions of the country, most of the Hungarians spend the summer holiday in one of the towns by the lake.

Did you KNOW?

Beware! Vampires ahead!

Although Vlad the Impaler (1431 -1476), more commonly known as Dracula, was born in the Kingdom of Hungary, he was in fact of Romanian origin. He was also imprisoned in the castles of Visegrád and Buda. Well, not for sucking blood, but for high treason. Interestingly, Hungarian actor Béla Lugosi became the most famous Dracula on the silver screen in the rest half of the 20th century, whose character is known for his terribly thick Hungarian accent and his line "I will suck your blood!"

Hungarian language

The official language of Hungary is Hungarian, and it is one of the official languages of the European Union. Hungarians call their language "Magyar". It is a member of the Finno-Ugric language family and it is not related to any of the languages in other surrounding countries. It might seem strange, but Hungarians tend to attach importance to the uniqueness of their language, and they are even proud of it. Hungarian can be considered a weirdo among European languages, primarily due to the fact that it does not belong to the Indo-European language family, to which most other European languages do. Oh, and as for the title: Hungarian is an agglutinative language, i.e. endings are attached to words in a prescribed order – in layman's terms, we love long word monsters. Otherwise, Hungarian is rather politically correct. In fact, it does not know grammatical gender – there's no difference between his ball and her ball. It is a less known fact, but Hungarian also loaned some words to the English language: coach (kocsi), hussar (huszár), itsy-bitsy (ici-pici), sabre (szablya).

Some inventions

If you ask a Hungarian to tell you some Hungarian inventions, they will give you a list that includes basically everything that is of any importance in the world, including computers and helicopters. Well, there's always some truth to these, but they tend to exaggerate. Here are some actual Hungarian inventions and discoveries though: ballpoint pen (László Bíró), Rubik's Cube (Ernő Rubik), holography (Dénes Gábor), noiseless match (János Irinyi), the concept of nuclear chain reaction (Leó Szilárd), the theory of the hydrogen bomb (Ede Teller), electric motor (Ányos Jedlik), cure for puerperal fever (Ignác Semmelweis), vitamin C, discovering the components and reactions of the citric acid cycle (Albert Szent-Györgyi), mRNA technology in immunology and therapies (Katalin Karikó).

Hungary, ELTE and the Olympic Games

Strangely enough for a small country like Hungary, Hungarians are ranked as the 10th in the All-Time Olympic Games medal table. We are very proud that six ELTE students participated as Olympians in Rio 2016. One of them, Boglárka Kapás swimmer, won a bronze medal on the Women's 800m Freestyle. Áron Szilágyi, ELTE student became only the fifth fencer in the history of modern Olympic Games to win back-to-back individual gold medals since 1896. Csaba Burján student of ELTE Faculty of Science also became an Olympic champion when he won a gold medal of Speed Skate in 2018 Winter Olympics.

Hungarian names

 In Hungary, similarly to China, Japan and Korea, the so-called Eastern name order (family name followed by given name) is used. Interestingly, while Japanese and Hungarian names are usually “switched” when individuals having such names are mentioned in Western countries (cf. Puskás Ferenc > Ferenc Puskás), Chinese and Korean names, as well as names of historical Japanese figures are usually left in the Eastern order (e.g. Mao Zedong).

Hungarians also celebrate name days. Each given name is assigned to one or more days of the calendar. People usually give some smaller symbolic gift, like flowers or dessert to each other on this occasion.

DA DA DA! Da da da da da dadada dadada da da da da da dada!

 Should you have not recognised the quoted “lyrics” in the title, we’ll help you: it is the fanfare of the major American film studio 20th Century Fox. It was founded by William Fox (born as Vilmos Fried in Tolcsva, Hungary), a Hungarian Jew. Mr Fried, whose name means “love” in Yiddish, was deeply involved with helping poor Jews and others in America, as he never forgot that he had been helped by others in his time of need. Interesting that Adolph Zukor, founder of Paramount Pictures and Michael Curtiz, Hungarian film director are other two founders of Hollywood film making. Further Hungarian-born figures at the birth of Hollywood are Béla Lugosi actor and George Cukor film director. Recently, it seems Hungarian films have good series in the film award season. In 2016 László Nemes Jeles with his debut feature film, “Son of Saul” (“Saul fia” in Hungarian) won the Academy Award for Best Foreign Language Film. In the next year, Kristóf Deák’s film “Sing” (“Mindennki” in Hungarian) won the 2017 Academy Award for “Best Live Action Short Film”. „On Body and Soul”, written and directed by Ildikó Enyedi, was selected as the Hungarian entry for the Best Foreign Language Film and was nominated for the Oscar at the 90th Academy Awards.

The Renaissance of Hungarian Wine-making

 If you’re from a country that has no wine-making traditions, you’ll be surely surprised that you can purchase good quality bottled wines from a mere 1500 HUF. Hungary’s probably most internationally known wine is the white dessert wine Tokaji, but there are many more wine regions in the country, such as Badacsony, Eger, Szekszárd, and Villány. Fröccs (spritzer), a mixture of wine and soda water, has recently become popular again. It is a true Hungarian speciality. Based on the portion of the wine and soda water there are various types of fröccs. The name of the fröccs reflects the portion of wine.

Here are some examples:

Kisfröccs: 1 dl wine + 1 dl soda water

Nagyfröccs: 2 dl wine + 1 dl soda water

Hosszúlépés: 1 dl wine + 2 dl soda water

Házmaster: 3 dl wine + 2 dl soda water

Viceházmester: 2 dl wine + 3 dl soda water

Living in Budapest

Famous sights IN BUDAPEST

BUDA Castle Hill (Vár)

The Castle Hill, which includes the Royal Palace, the Fishermen's Bastion and Matthias Church, is easily visible from everywhere in Budapest. Exploring beautiful buildings and cobblestone streets in the Castle District can take an entire day, but it is time well spent. The Royal Palace, rebuilt in neoclassical style after the Allied bombings during World War II to evoke the baroque and neo-baroque palace that was built in the place of the once-famous Medieval palace, is home to the Hungarian National Gallery, the Budapest History Museum and the National Library. Fishermen's Bastion is one of the most fascinating sights on Castle Hill. Although fishermen from Watertown (Víziváros) reputedly defended this part of the city during the Middle Ages, Fishermen's Bastion was built in the 1890s for purely decorative purposes.

Chain Bridge (Lánchíd)

The Chain Bridge was the first bridge to permanently connect Buda and Pest. At the time of its completion, Chain Bridge was considered to be one of the wonders of the world. Crossing the bridge is just a short walk, and no matter which direction you go, the view is beautiful.

Opera House (Operaház)

The Opera House is not only one of the most significant art relics of Budapest, but also the symbol of the Hungarian operatic tradition. Designed by Miklós Ybl, a major figure of 19th century Hungarian architecture, the construction lived up to the highest expectations. Ornamentation included paintings and sculptures by leading figures of Hungarian art of the time: Károly Lotz, Bertalan Székely, Mór Than and Alajos Stróbl. Many important artists were guests here, including Gustav Mahler, the composer who directed the institution from 1887 to 1891 and who founded the international prestige of the institution.

Heroes' Square (Hősök tere)

Heroes' Square is the largest and most impressive square of the city. The Millennium Monument standing in the middle of the square was erected in 1896 to commemorate the 1000th anniversary of the Magyars' arrival to the Carpathian Basin. The Museum of Fine Arts is located on the northern side of the square. The Kunsthalle (Hall of Art), an exhibition hall for contemporary art, is on the southern side. The City Park, which is just behind the square, provides a great escape from the bustle of the city. The 1896 Millennium Celebrations took place here, leaving many attractions behind. Vajdahunyad Castle was built to show the various architectural styles of Hungary, and has Romanesque, Gothic, Renaissance and baroque parts. There is a boating lake next to the castle, which is turned into an ice skating rink in the winter.

Margaret Island (Margit-sziget)

 Margaret Island now serves as a recreational park in the centre of the Danube River. It is a great place to walk, swim a few laps or go for a run. During summer months, bicycles are also available for rent. Since vehicles are prohibited, the island is a fantastic escape from the city's traffic.

Central Market Hall (Központif Vásárcsarnok)

 The spectacular Central Market Hall is a good source of Hungarian products. You can also make it a pit- stop for a quick bite of traditional Hungarian food when touring the city. Shop with the locals for meat, cheese, fruits, vegetables, and pastries.

Andrássy Avenue (Andrássy út)

 This elegant avenue, recognised as a World Heritage Site, is often referred to as the Champs-Elysées of Budapest. It is also called a cultural avenue, as the Opera House, the best theatres in Pest, the Liszt Ferenc Academy of Music and many museums are located on the avenue or nearby.

Váci Street and Vörösmarty Square (Váci utca and Vörösmarty tér)

 'Váci utca' is perhaps the most famous street in Budapest. It runs from Vörösmarty Square to the Central Market Hall and features a large number of restaurants, shops and cafés. Vörösmarty Square, located in the heart of Budapest is always busy. This is where the famous Gerbeaud Café, as well as the first station of the Millennium Underground, can be found.

The Hungarian National Assembly (the House of Parliament) (Országház or Parliament)

Getting around IN BUDAPEST

Budapest has an efficient, diverse and low-cost network of transportation, including bus, metro, trolley bus, tram, suburban railway (HÉV) and boat services. The Centre for Budapest Transport (Budapesti Közlekedési Központ, BKK) is responsible for the main transport services in Budapest (including the bus, tram, metro, suburban railway and trolleybus networks) in an integrated system. BKK Customer Service Offices can be found in or around Budapest Airport, bigger train and metro stations and the city centre.

Transportation titles

If you would like to use public transportation, keep in mind that you have to have a valid ticket or pass. Tickets are available all around the city at metro stations, tram stations or street kiosks. Once you bought a title (ticket or pass), you can use it on the whole network, regardless of the service. Exceptions are: Danube public boat services on weekends, the Buda chairlift and the Castle Hill Funicular services. Note that Budapest Passes (such as the BKK Monthly Student Pass) are only valid inside the administrative borders of Budapest Capital; you might need to purchase complementary tickets if you intend to travel to neighbouring municipalities using the bus or suburban railway services. On the other hand, Budapest Passes are valid on the lines of service providers other than BKK inside the borders of Budapest (MÁV, Volán), so you can use some train or regional bus services inside Budapest. As for single tickets, you need to validate a new ticket for each journey. If you are in a hurry, single tickets are available from the bus/tram driver for a higher price.

Ticket types and prices (August 2021):

A few tips to consider:

- Wallets should not be kept in the back pockets of your pants or in the outside pockets of your bag.
- Keep your money, documents, mobile phone safe and secure; in an inside pocket.
- Passports and travel documents should be kept in a safe place.

Banking in HUNGARY

If you study at ELTE with a Hungarian governmental scholarship (e.g., Stipendium Hungaricum), you are required to open a Hungarian bank account where your scholarship will be transferred.

The bank is free to choose if they accept your application. That is a private business decision for the bank. Before opening a bank account, the bank needs to get to know its potential clients. This may, require more due diligence in assessing bank account requests from non-residents. Some banks may therefore, have a policy not to accept non-resident customers.

To open a bank account, you must present your passport and another identification document (such as driver's license, tax card, etc.). If you are a non-EEA student, it is usually necessary to have a valid residence permit and address card in order to open a bank account, although some banks allow foreigners to open an account with just the presentation of a passport.

In Hungary, banks are typically open on weekdays from 8:00 a.m. until 4:00 p.m. Banks are not open on Saturdays except some branches in shopping centres.

If you need help in opening a bank account, you can ask your mentor to assist you.

Automatic teller machines (ATMs)

ATMs can be found anywhere in Hungary and Budapest. Hungarian banks charge a commission for using ATMs. Note that higher services charges might apply for using an ATM that is not operated by the bank that issued your bank card.

You don't have to worry about exchanging Hungarian Forint before your arrival and carrying cash. ATM machines are widely available in major cities, and they accept Visa and MasterCard

Paying taxes in Hungary

If you study at ELTE with a Hungarian governmental scholarship (e.g., Stipendium Hungaricum), you are required to apply for a Tax Card after your arrival in Hungary. You need to request a Tax Card in person at the National Tax and Customs Administration (Nemzeti Adó- és Vámhivatal). First application for a Tax Card is free of charge. You are required to take with you your passport.

You need to pay taxes if you have a job in Hungary or you receive any other income from anyone in Hungary.

Postal and telephone services

Magyar Posta (Hungarian Post) is the postal administration of Hungary. Besides normal mail delivery, Magyar Posta also offers logistics, banking, and marketing services.

Typically, you can post a letter in the post office, or you can just throw it with valid stamps into a postbox on the street. You can easily find post offices in Budapest and the main post offices are usually open until 8:00 p.m. As for post offices, always check it on the postbox when they empty the box.

The country code for Hungary is 36. Calls to international destinations are in the format 00 + country code + number. On mobile phones, + can be used instead of 00.

Mobile phone use in Hungary is very widespread. There are three main service providers in Hungary: T-mobile, Telenor, and Vodafone. There is no major difference in the mobile phone tariffs but minute fees within the network are typically cheaper so you might get the same provider that your friends use. You can also decide if you pre-pay for the phone usage or purchase a monthly payment.

At the beginning of each semester, ESN ELTE and the SH mentor network helps new international students with getting a Hungarian SIM card fast after their arrival.

Food markets (like Central Market Hall) are the best places if you want to buy some fresh fruit or vegetables at a good price. They are open from Monday till Saturday between 6:00-18:00. Many locals do their shopping there.

One of the main and most famous shopping areas in Budapest is Váci street. It is a pedestrian street, which runs from Vámház körút (Central Market Hall) to the Vörösmarty square featuring a large number of fashionable shops, restaurants and cafés. Andrassy street can offer another great shopping experience, if you have a larger budget. It is a place of famous designer shops (like Gucci, Armani, Louis Vuitton, Dolce & Gabbana).
